LOGAN BROWN

Strategic Technology Leader & Nonprofit Executive

720.319.8667 • logan_brown@outlook.com • https://loganbrown.ai • Denver, CO

Summary

As a Technology Leader with over a decade at Fortune 50 companies, I translate strategic business goals into clear technology vision and roadmaps. I balance deep technical detail with a big-picture view so solutions are complete, practical, and future-ready. I consistently identify opportunities to modernize and innovate, and my recent entrepreneurial work strengthened my fluency in finance and operations, helping me design outcome-focused technology that moves the business.

Experience

MeadowTech
Parker, CO

Founder
01/2025 - Present

- Founded and grew an IT managed services and fractional CIO/CTO firm supporting 65+ end users & endpoints across multiple nonprofits, owning strategy, security, and delivery
- Cut client onboarding and offboarding time by 2 weeks on average with zero touch provisioning by hands-on integration of HRIS, MDM, and procurement workflows
- Reduced client IT run rate by up to 40 percent through SaaS consolidation, vendor renegotiation, and license right sizing, including clients with existing in-house or outsourced IT
- Established an IT service desk model with documented SLAs, playbooks, and vendor scorecards, achieving 98 percent SLA adherence

R3 Corporation
Parker, CO

Chief Technology Officer (Fractional)
01/2025 - Present

- Designed and executed the future-state technology architecture for the end-to-end client lifecycle, including the evaluation, implementation, and support of CRM, EMR, and RCM solutions.
- Implemented a go-to-market stack, including Marketing Platforms with VOIP and CRM, that streamlined lead capture, sales, and conversion, lifting revenue by $300k in 4 months.
- Deployed a data and compliance management platform that eliminated manual entry and training overhead, saving $45K per year.
- Owned organizational compliance across HIPAA, SOX, BHA, and LegitScript, maintaining policies, audits, and vendor management to keep the company audit-ready.

Slalom Consulting
Denver, CO

Senior Enterprise Architect, Technology Strategist
03/2022 - 01/2025

- Notable Client projects:

  - Chief Architect for $3B Healthcare company: Acted as a trusted advisor to the CIO & CTO. Performed EA maturity assessment and implemented the Enterprise Architecture Practice with accompanying governance activities, processes, and policies. Completed detailed current state architecture assessment across acquisitions and business units, aided in the definition of a future state architecture and modern data platform that aligned with the strategic direction of the business

  - Enterprise Architect for large Space company: Developed and scaled Application Rationalization program. Evaluated over 85 applications and developed prioritized Technology Roadmap to execute on recommendations through strategic planning and modern architecture design patterns

Experience

Visible (A Verizon Company)
Head of Business Technology
Denver, CO
12/2018 - 03/2022

- Lead team that owned strategy, governance, and operations for Visible's corporate systems, business applications, and end user support for approx. 1200 users.
- Managed cross-functional portfolio of 3rd party software including budget, compliance, evaluations/RFPs, and administration.
- **Achievements:**
- Led the evaluation, procurement, and enterprise rollout of Slack as a collaboration tool to approximately 1,000 Visible End users, which resulted in larger adoption by Verizon for over 100,000 End Users.
- Architected and integrated a Zero Trust, Factor-Based user authentication flow by leveraging OKTA Identity Management and VMWare Workspace One to provide a passwordless login experience for company applications.

Comcast
Care Systems Manager
Denver, CO
01/2017 - 12/2018
